FAIRSHARES LAB

NEWSLETTER

Dear Reader,

we are happy to present you the second edition of our project newsletter.

During the recent 6 months the project partners have met twice in transnational meetings in Sheffield (UK) and Berlin (Germany) to discuss and work on the intellectual outputs and the dissemination activities of the FairSharesLabs project.

We could also participate and present the ideas of FairSharesLabs at the big networking event of the FairShares Association and the FairShares Institute in Sheffield.

And we visited FaithStar a social enterprise in Sheffield on the road to a FairShares Company.

Finally we got an introduction to the goals and services of the first full accessible co-working space in Berlin, the "TUECHTIG".

Please enjoy the articles and we are happy if you could give us back some comments.

Kind regards and cheers
Roger Schmidtchen, coordinator

Second transnational project meeting

26th - 28th

June in Sheffield UK

The second meeting of the six partners took place in Sheffield in June, where nine people came from Germany, Croatia, Hungary and the Netherlands to meet with UK based Social Enterprise International and members of the FairShares Institute further the work of the FairSharesLabs.

The meetings took place at two significant Host organisations. The first being Sheffield Hallam University, who are becoming an important Academic partner

in the project largely due to the work of Dr Rory Ridley Duff who is both a Director of one of the Partners, Social Enterprise International Ltd and an Associate Professor of the University.

The other host was an organisation called Faithstar – soon to be rebranded as FaithCom Ltd. The CEO and Founder of FaithStar is Shahida Saddique, and the meeting gave her the chance to share her story and interest in FairShare.

Third transnational project meeting

23th - 24th

August in Berlin, Germany

The third transnational project meeting took place from 23rd till 24th of August 2017 in Berlin. Totally 9 participants from 6 different partners met at the first inclusive Co-Working Space in Berlin, The Tuechtig, running by the KOPF, HAND und FUSS gemeinnützige Gesellschaft für Bildung mbH, one of the two German project partners.

Main topics of the meeting were the debate on the first draft of Intellectual Output 1, the methodology of FairShares Labs, the marketing activities and second draft of the Intellectual Output 2, the interactive cooperating learning and working tool.

Work, Learn And Exchange With Each Other

Study visit of the Fairshares Lab partner at TUECHTIG inclusive Co-Working Space

During the 3rd transnational project meeting of the FairShares Lab project in Berlin at 23rd and 24th of August 2017 the 9 participants from 5 European countries visited "TUECHTIG" Germany's first inclusive and barrier-free co-working space.

TUECHTIG wants to offer a place for working, thinking, exchanging and learning, a people welcoming any starting place. The collaboration of young and old, of people

with and without disabilities, German and non-German, employed and self-employed is a fundamental characteristic and basis how the TUECHTIG is working.

This breeding ground of creative ideas is also empowered by accompanying events, mentoring programs, start-up offers, expert salons and networking with the economy.

FairShares Labs

Institute for Cooperative
Social Entrepreneurship

VISION

To eliminate poverty and promote social justice by building communities in which every adult has the opportunity to become a co-owner of the organisation on which they, their family and community depend.

MISSION

To engage in critical testing, development and application of the FairShares Model and disseminate the results in an intellectual common for the benefit of educators, researchers, entrepreneurs, managers, members and professionals engaged in co-operative social entrepreneurship.

Five values and Principles

Programme: Erasmus+

Key action: Cooperation for Innovation and the exchange of good practices

Action: Strategic partnership

Main objective of the project: Development of innovation

Project start date: 01/11/2016

Project end date: 31/03/2019
